Prisoners Are Charged With Inciting Riots

WERDEN, Rhenish Prussla,--(Associated Press)—This little German town, hugging both banks of the River Ruhr just under the hill that is crowned by the Krupp Mansion, was attracting more attention today than at any time in its history of centuries.

The French brought Werden before the eyes of the world when they decided to hold here today and tomorrow the court-martial of Dr. Gustave Krupp Von Bohlen, prestdent of the great Krupp works, five of the directors and four members of the workmen's council who are charged with inciting the attack on French troops on March 31.

The court-martial headquarters of the 77th French division were moved to the town because of crowded conditions in Essen.

Washington is Warned of Pos-

PARIS - (United Press) - Pres mier Poincage of France is of the opinion that the ruling prohibiting foreign vessels from carrying liquor in American waters transgresses international usages and that it is impossible for France to comply, it was semi-officially stated today. The French Premier has charged Ambassador Jusserand at Washington to make clear to the United States government the consequences to complications between rrance and America.

BEFORE U. S. CABINET
WASHINGTON — (Associated Press) — The administration is moving with extremo care in its preparations to apply the supreme court liquor edict against foreign vessels in American ports and the regulations now in the making will not be announced until every possible single of the situation line been examined.

Revenue Commissioner Blair, whose bureau has supervision over prohibition enforcement, evaforred with President Harding before today's cablnet meeting at which it was understood the supreme court opinion was talked over for a second time by the chief executive with his official family.

At the same time there were indications that the state department was preparing for a diplomatic battle with the foreign governments who consider their interests in the maritime world frangenesed by the new ruling. Department officials have taken the position that the right of the United State to regulate the conduct of ships within its territorial waters cannot be questioned, but they are aware that a different view is hold in other quarters. OPEN LETTERS To Fire Chief Mack

DEAR JOHN: Once more, John, I ask you. Is it necessary that your fill-in department break or attempt to break all existing speed records when coming to Central while that outfit is answering a call?

I love all my people and it grieves me when one is killed or injured. It would be doubly sad if such a thing should result from the mad dash the laddies stage in getting to headquarters to stand by while you are out.

I have mentioned this before. Take it up, please, and let me have an official report, John

LIMA BEANE

0 - 0 = 0To City Manager Bingham

DEAR GENERAL. Someone allowed the state law affecting convict labor to be violated a few days ago when pur-oners at my police station were used to clean boul light globes. The lights looked better after the washing they received, but we must regard the law, General.

THAT BEAVE

0 - 0 = 0To Lieutenants John A MacReady and Oakley Kelly

DEAR BOYS: My congratulations! You have just established another record in the matter of aviation by living across the continent without a stop, negotiating the distance in approximately 27 hours.

Developments are coming to tapidly nowadays that what you finished yesterday will be forgotten tomorrow, but it all goes to make up the chain of progress which is bringing us nearer and nearer the realization of a new mode of travel which will reheve our congestion on earth. Men like you are advancang this day.

TIMY BEAZE

0 - 0 - 0To Miss Susie Hettlock

DEAR SUSID. You have just set a marather theoriecord for dishwashing. Tim informed. You steed over the dislipan for 31 hours without stopping and challenge others to beat your record.

I don't think there will be as many contestants for this crown as for the foot long-distance dance championship. While I'm not strong for such contests in any line, more good will come from the one you have started if you can get guls into the latchen to help Mother, then from all others combined

JEMA BEANE

To John Doe, Whereabouts Unknown DEM JOHN: Sometime, John, when you are about to endear yourself to the forgetting to clean no the alley. street car company by contening privately with another one-man car operator out on the Spencerville-id after duk, a big man with blue clothes and a shiny star will step up behind you and say, "That's all there is John, there isn't any more."

And he will lead you away to where another big man with a rough voice will get familiar with you and ask you lots of personal questions. And pretty soon after that, they will give you a room in Lanker's Hotel and you will get to stay there a long time to think

If you think it over now and think right, you won't have to think nearly as long Yours for luck.

LIMA BEANE

0 0 0 To Lima Lodge of Elks

MY FRIENDS. Your May festival having been opened to the public, I trust your most sanguine expectations in the matter of providing a \$10,000 fund for charity in my city will be more than realized.

It pleased me to note the enthusiasm which marked the uncorking of the big event last night.

To Sinking Fund Trustees

FENTLEMEN: Thanks for buying the street cleaning bond issue. You have not only saved me from a dusty summer but you have saved my city government the cost or marketing the bonds.

Each year in the month of May, a special effort is made by this store to assemble the best possible values in Men's and Young Men's Apparel to be found in the leading Tailoring plants of America.

They go the limit, and give us their surplus stocks at prices little more than the cost to make.

She will also coarsen herself. "To be young and beautiful she must go back to the condition of her ancestors who dined of fthe wing of a chicken and a cup of tea."

Pixies blue clothes in the washing water

This is how this new blu-ing works—

First, you boil up your soap with a Pixie tablet in a saucepan, making a blue liquid soap. Second, pour this liquid blue soap into your wash-boiler (or wash tub or washing machine)

and taix to an even blue color. Third, put in the clothes and boil or wash in blue scap-suds and rinse as usual-

And then you will find

your clothes exquisitely white and ready for the clothes line. No separate bluing job to bother with! The little Pixie has done your bluing for you during the washing!

Pixies are the first bluing that would work with hot water and soap, permitting the washing and bluing jobs to be combined in this way.
